

Press Release

July 29, 2004

The Western Regional Radon Training Center in Colorado Springs, Colorado has moved and is under new management. This change took effect June 1, 2004.

Mr. David Grammer of RAdata, Inc., Flanders, NJ is the new director for the training center. Mr. Grammer has been involved in the radon testing and mitigation field since 1984. He operates a national laboratory and the largest mitigation business in America. He is an adjunct instructor for the Eastern Regional Radon Training Center at Rutgers University since 1988 and conducts training every quarter in the Northeast. Mr. Grammer can be reached at 800-447-2366. Dr. James F. Burkhart, Chair of the Physics Department and Professor of Physics at the University of Colorado at Colorado Springs will still be the instructor of the Radon Training classes. Ms. Linda Martell is the course administrator.
